

Topic: Wider World

Lower KS2 Summer 2

Science:

Animal habitats – exploring materials used and gathering natural materials

Make model environments in the classroom – explore habitats using all senses

Magnets and magnetism – experience the effects of magnets

What repels or attracts magnets

Creativity:

Specialist African Art – recreating and making our own artwork

Pictures of sunsets using different media

Making papier mache drums

World music

Knowledge and Understanding of the World:

Learning about journeys and different types of transport people use

Sensory experience of climates and cultures from other countries

Decide what people would pack for different journeys

Personal skills:

Turn taking and cooperation – using a variety of games and activities in pairs and small groups

Preparing a fruit salad using fruits from around the world

Friendship – what qualities make a good friend

Computing:

Using walkie talkies to communicate

Using technology for different purposes in the class e.g. photos, activating equipment

Physical:

PE lessons with Wendy or Rebecca

Some classes will be horse riding or swimming

Individual sensory programmes

Movement breaks

Motor skill development

RE:

Our focus is on Christianity and Islam.

MFL community languages café we will share and experience foods and culture from around the world

Activities to try at home:

- Read stories and poems relating to our theme.
- Use different types of public transport – take photos to send into school
- Look at videos or pictures of locations around the world
- Try foods from around the world
